3. adapt protection plan

General Service Questions

After you have initiated the creation of the protection plan, you can now customise how the protection plan should look. There are several options to choose from, including: Backup, Antivirus & Antimalware Protection, Vulnerability Assessment and Device Control. Now you can select modularly which features you would like to have configured on the device(s).

			C	reate protection plan		Ŕ	} ×	
				Add devices
