

# Network

## Can I transfer my additional IP to another server?

unfortunately not all IP's can be transferred from all servers:

vServer <-> Dedicated server - Not possible

vServer <-> Root-Server - Not possible

Root server <-> Dedicated server - Possible

Among each other transfer is not a problem, such as:

Dedicated server <-> Dedicated server - Possible

Root server <-> Root server - Possible

vServer <-> vServer - Possible

Unique solution ID: #1523
