Acronis - Disabling the Report Mails

1. Go to the Dashboard

Please click on the tab "Alerts". In the tab, please go to "Daily activities".

The screenshot shows the Acronis Reports dashboard. The left sidebar has a 'REPORTS' tab selected, indicated by an arrow labeled '1.'. The main area displays the 'Daily activities' report, with an arrow labeled '2.' pointing to the 'Alerts' link in the left sidebar.

2. set or turn off time intervals

Once you have clicked on the settings, you have the option of setting the time intervals for your alerts or switching them off completely. To switch off reporting completely, please deactivate the "Scheduled" slider. Then click on "save" and the changes will be applied.

The screenshot shows the 'Report settings' dialog box. The 'Scheduled' toggle is turned on, indicated by an arrow labeled '2.'. The 'Settings' button in the top right corner is highlighted with an arrow labeled '1.'. The 'Save' button at the bottom right is highlighted with an arrow labeled '3.'.
